

4C Health, Safety, & Environmental Conference

April 3-5, 2018

San Antonio, Texas

Post Conference Report

ABOUT THE CONFERENCE

The 4C Mission

4C's mission is based on the core belief that involvement is key for compliance professionals. We believe when people come together to connect, they influence change that better environmental practices of the entire community. The 4C mission is to provide an environment where compliance professionals come together to [collaborate](#) and [connect](#) with peers, and [contribute](#) to industry [compliance](#), (that's where the 4Cs come from).

The 4C Conference

The conference began in 2011 as the LDAR, BWON, Tanks, and Flares (LBTF) conference, and has witnessed steady growth since its inception. It has developed into a cornerstone networking event and educational opportunity for HSE industry members, subject matter experts, and vendors alike.

The huge amount of cutting-edge content the 4C Conference offers, and the opportunities it affords to vendors will ensure 4C's continued success and growth as an industry renowned event.

Through the 4C Marketplace, 4C HSE Conference creates a live space for Health, Safety and Environmental (HSE) professionals to connect face-to-face on a yearly basis. We hope you join your peers and industry experts April 3rd-5th in San Antonio, Texas as they share insights and best practices on the most significant environmental topics of the day.

The 4C Conference focuses on environmental regulatory, policy, health & safety issues, best practices, and technological advancements in the industry.

The training courses are designed to educate facility managers, technical personnel, and newly appointed HSE staff on existing and new health, safety, and environmental compliance strategies and best practices.

Presentation sessions are offered on more than 10 topic tracks and range from introductory content to advanced topics, applications, and case studies.

300+ decision makers, managers, and representatives from 90+ refinery and petrochemical plants and service providers attend, giving attendees the opportunity to connect with peers who share professional education goals, experience the same challenges and opportunities in the refining and petrochemical industries.

2018 CONFERENCE OVERVIEW

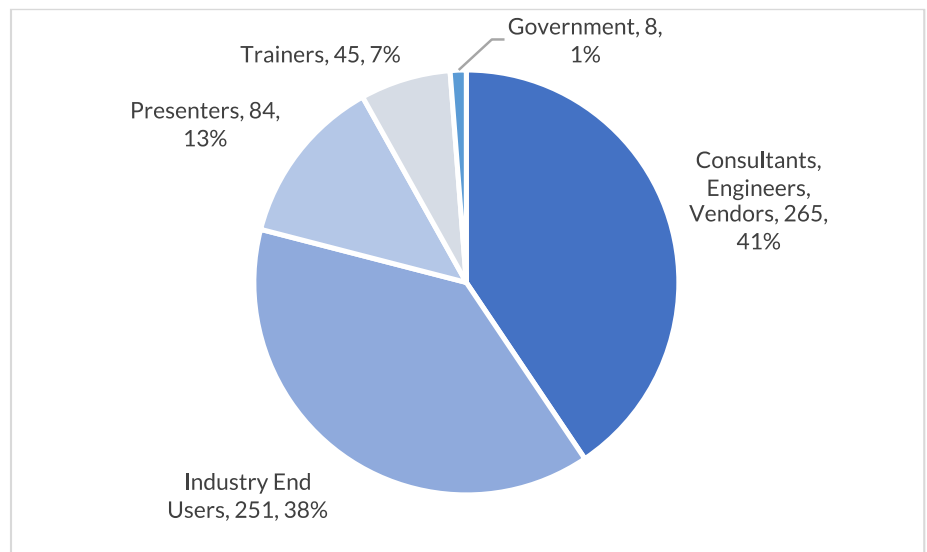

Conference Details

Attendees	686
Attendees from	48 states 10 countries
Presentations	110
Training Sessions	34
Number of Exhibitors	62
Number of Sponsors	35

Conference Pricing

Government	\$1,225
Industry Member	\$1,495
Non-Industry Member	\$2,450
Presenters & Trainers	\$250
Students	\$100
Exhibit Booth	\$4,000

Distribution of Attendees by Industry Affiliation

What Industries Attend the 4C Conference?

Biofuels
Chemicals
Construction
Consulting
Contractors
E&P, Oil and Gas
Education
Energy
Engineering
Food and Beverage
Government
Law Firms
Manufacturing
Media
Nonprofit

Non-Profits
Other
Pipeline, Oil and Gas
Pulp and Paper
Refinery / Petrochemical
Retail
State Agency
Stone Clay Glass & Concrete Products
Technology
Terminals
Testing Laboratories
University/College
Utilities
Industry Vendors

2018 PRESENTATIONS & TRAINING SESSIONS

Steering Committees

The 2018 conference solicited expert guidance and input from steering committees for each topic track featured at the conference. Steering committees are responsible for collecting, evaluating, and approving quality content that educates attendees on rising topics in the health, safety, and environmental industry. If you are interested in participating in a 2019 Steering Committee, please email Soni Mohan, Steering Committee Coordinator at soni@4cmarketplace.com.

Air Permitting	BWON	CEMS	Emerging Technologies
Les Montgomery Vice President, RPS Group	Bruce Douglas Principal Consultant, Trinity Consultants	Donny Klotz Business Development Manager, M&C TechGroup N.A.	Jonathon Morrison Drone Operations Manager, Insight Environmental
Kevin Moin Principal, RECES, LLC		Tim Kuiken Business Development Manager, M&C TechGroup N.A.	Stephen Fargo CEO, DataWing Global
		Brian Fowler Director of Implementations & Marketing, Environmental Systems Corporation	
Environmental Legal	Flares	Flares/RSR	Fugitive Emissions Prevention
John B. King Partner, Breazeale, Sachse & Wilson LLP	Troy Boley Vice President, Spectrum Environmental Solutions, LLC	Herman Holm Environmental Services Director, Spectrum Environmental Solutions, LLC	Dale Rice Corporate Environmental Engineer, V.S.P Technologies
Carrick Brooke Davidson Counsel, Vinson & Elkins	Mike Hahn Corporate Accounts Manager, (Retired), GE, A Baker Hughes Company		Bronson Pate Global Vice President, RFS Compliance Solutions
			Raymond Smalts Environmental Specialist, HollyFrontier Corporation
			Joel Baulch Engineering and Technical Services Director, TEADIT
			Earl Hassel LDAR Coordinator, CPCChem
			Richard Tym OEM Market Manager – North America, Garlock Sealing Technologies

LDAR	Oil & Gas	RMP/PSM	Wastewater
Tanya Jackson Project Manager, Montrose Air Quality Services	Jeff Voorhis Engineer, Hybon Engineering	Jean Flores Owner, Guida, Slavich & Flores, P.C.	Tim O'Connor Senior Environmental Specialist, Environmental Business Specialists, LLC
Matt Gobert Vice President, EMSI	Sean Macleod Engineer, Williams	Kristin Gordon Houston Office Director, All4 Inc.	Lori Donovan New Challenges in Program Management, Honeywell
Deever Bradley Partner, ERM			
Terence Trefiak President, Target Emission Services			

2018 PRESENTATIONS & TRAINING SESSIONS

2018 Keynote Speakers

Steve Probst
CEO & Founder, 4C Marketplace

David Friedman
Vice President, Regulatory Affairs at AFPM

Ken Garing
Chemical Engineer at US EPA (Retired)

Presentations

4C offers attendees access to the largest and highest-quality collection of presentations. Presentations cover more than 10 different topic tracks, and range from introductory topics to in-depth case studies. Below are the presentations from the 2018 conference.

Air Permitting

2015 Ozone Standards and Current and Potential Shortage of Emission Reduction Credits
TCEQ Air Quality Permitting Effects Evaluation
Photochemical Modeling with CAMx for Ozone Inter-Precursor Trading
A False Sense of Security - Shifts in EPA's Implementation of PSD Capable of Accommodating Determination and The Demand Growth Exclusion
Emissions Reduction Warehousing Analysis: Positioning Your Plant for Growth
Navigating TCEQ's "Non Rule" Permit-By-Rule
Formaldehyde: A New Concern for Air Permitting?
Serving Two Masters; Understanding Texas and EPA Permitting Programs
New Source Review: What to Look for in Upcoming Reforms

BWON

BWON Compliance in the Post-CD Era
Downstream Confirmation of Benzene Loading
Vaporlock Scrubber Technology Reducing Carbon Usage for BWON Compliance
BWON Interpretation for Ethylene Plants
On-Going BWON Compliance Concerns
BWON Off-site Waste Treatment
Beyond CD Compliance, to Audit or not?

CEMS

Mass Spectrometers for BTU in Flare Determination
Emerging analyzer technologies for CEMS
Experience with Continuous Emission Monitoring Systems; A Love, Hate Relationship
Difficult CEMS Applications at Refineries and Chemical Plants
Overcoming Common Gas Sampling Challenges
Simplifying CEM Reporting: The Revolution in Data Acquisition & Handling
Common CEMS RATA Failures and Risks
Potential Impacts of Recent U.S. EPA Region 6 Guidance on CMS Downtime and Data Calculation

Emerging Technologies

How to Integrate Drones into Routine Operations
Detection Limits for Optical Gas Imaging
Aerial Infrared Thermography
The Impact of New Technology on HSE : How Are Drones Currently Having an Impact on Improving HSE Procedure for Industrial Assets Owner, Opportunities and Challenges
Optical Gas Imaging
Aerial Gas Leak Detection May Be Simpler Than You Thought!
The AIHR Shark Offers a Uniquely Innovative Approach for You to Get Into and Stay in Compliance for Your Air Monitoring Programs
Committing to Safe and Versatile UAV Inspections
Conducting a Threat Assessment of Your Facility's Airspace

Environmental Legal

Clean Air Act Risk Management Plan and General Duty Clause: EPA Enforcement Trends and Other Emerging Issues
TSCA Reform, Take 2: Reconciling Trump's Deregulatory Agenda and a Congressionally-Mandated Program
The Regulation of Oil & Gas Activities Under the Trump Administration
Next Generation Enforcement: Environmental Enforcement in the Trump Era
It's Not Dead, It's Mostly Dead - CD Termination
New Developments in Environmental Enforcement
Enforcement: The State and Local Perspective
What's Happening on RMP and PSM in the Courts and in the Trump Administration? Will the Rule Stay Delayed or Should Companies Prepare to Comply with the New RMP Rule Now?

Flares

How to Control Flares to Comply with RSR-63.670 Rules

Flare System EPA Compliance – How to Simplify Three Projects' Execution While Saving on Installation Costs and Improving Productivity

Flare System Control and Optimization for MACT CC RSR 63.670

Development of an Elevated Flare Tip to Ease 40 CFR 63.670 Compliance

The Final Flare Requirements – Latest Update on the Refinery Sector Flare Rule

Reduce Turnaround Loading of H₂S to the Flare Utilizing New Scrubber Technology

Using Optical Flow Sensor Technology to Meet EPA J/Ja and RSR Requirements

Ultrasonic Flowmeters Meeting the Flow Measurement Challenges of MACT RSR 63.670 - From Flare to Steam to Fuel Gas Measurement

Flares/RSR

RSR SSM Impacts and Solutions for NHV Management

Benzene Fenceline Monitoring; Regulation Updates & Lessons Learned for Ongoing Compliance

Flaring Circa 2019, Increasingly Stringent Requirements to Reduce or Eliminate Refinery Flaring

Flare Gas Composition Analysis and QA/QC – Lessons Learned and Lessons Lost

Utilizing Mobile Treatment Systems to Aid in Process Unit Deinventory – Meeting Refiners' Challenges with MACT CC

Eliminating H₂S & SO₂ Emissions at SRU, Coker and Other Sulfur Handling Units of Refineries

Overcoming Challenges Meeting RSR Flare Monitoring Requirements

Comprehensive Measurement and Analytical Technologies and Innovative Digital Solutions for RSR Compliance

RSR MPV PRD & MSS

Fugitive Emissions Prevention

Good Packing Installation Techniques for Fugitive Emissions Services

The Value of Utilizing Low E Technology as a Standard

Acoustic Monitoring Environmentally Friendly but Economically Fruitful

Methods for Enhancing Fugitive Emissions Prevention in Chemical Process Pipelines

End Users Views on Flange Sealing – Using Market Research to Direct Meaningful Product Development

Fugitive Emissions Standards and Laboratory Test Methods for Valves

Is There A Better Way to Do LDAR

Bolted Connectors: Re-Torquing to Reduce Fugitive Emissions – When and When Not

LDAR

Environmental, Health & Safety Driving Grab Sampling Culture

Levels of Compliance

LDAR 2.0: LDAR for Environmental Compliance and LDAR for Operational Excellence

What is a Connector? When Do I Have to Monitor It?

Forge Bonding Valve Repair

The Future Technology of LDAR.

Data Analysis and how it can Improve your LDAR Program

It's Just Calibration....How Hard Could It Be?

Oil & Gas

ONE Future – The Search for The Best Way to Reduce Methane Emissions.
Permian Basin Environmental Success Story: Revenue Sharing With Vent Gas
Acoustic Condensate Stabilization
Waste Heat - A New Profit Center
Process Burner Flames: The Good, the Bad, and The Ugly
Oil and Gas Regulatory Uncertainty - The New Normal?
Update on Current High Resolution Site Characterization (HRSC) Technology, 3D Data Modeling, and Applying HRSC Data to Remedial Design (Part 1)
Improved Result for In-Situ Remediation Projects by Utilizing High Resolution Data, Injection, and Hydraulic Placement Treatment Methods – It's a Contact Sport (Part 2)

Oil & Gas / Refinery Best Management Practices

Navigating through the Challenges of NSPS OOOOa
OOOOa LDAR Compressor Station Case Study Results
Expansion Projects' Potential Impact on Wastewater & Liquid Streams in Open Systems
QUAD Oa LDAR - Process and Procedures
Refinery-Wide Maintenance Vent Compliance Program Development Strategies
New Technology for Treatment of Refinery Chemical Cleaning Waste Water
Utilizing Mobile Treatment Systems to Capture Lost Profits Resulting from Flared or Reprocessed Fuels
Review of Best Practices for Selection, Installation, Operation and Maintenance of Gas Meters for Flare Applications
Used for Managing Facility Mass Balance and Compliance

RMP / PSM

Improving Safety with Wireless Monitoring of Safety Showers
EPA's Regulatory Reform Agenda One Year In
Trends in EHS Auditing
Does My MOC Affect Relief or Flare System Design
Introducing A New Technology: An Economical & Efficient Means to Capture VOC's & Extinguish Tank Fires With One Multipurpose Tool
Manage Process Changes in More Efficient and Controlled Manner Through eMoC
Lesson Learning from Off-Road Motor Vehicle Incident - A Case Study
PSM 101
Forget About the Feds, States are Moving on Expanded PSM/RMP Rules – Is it California Dreamin' or a Glimpse into the Future of PSM/RMP Rulemaking?

Wastewater

Method Update Rule - Impact to Detection Limits
Water Reuse Solutions in Small Communities by Fixed Film Based Package Treatment and Innovation Disinfection Processes
A Primer on PFAS, a Contaminant Emerged
Water Efficiency Evaluations: Approaches and Secondary Impacts
The Role of Science in Developing Enhanced Oil and Gas Resources, Being Environmentally Sound, and Protecting Water Use
EPA's Modeling Approach to Metals Criteria, How May it Affect State Water Quality Criteria?
Use of Carbon Dioxide for Effluent and In-Process pH Reduction
"An Overview of NSPS Subpart QQQ – VOC Emissions from Petroleum Refinery Wastewater Systems

Training Sessions

4C brings together subject matter experts on all areas of HSE, and offers conference attendees classes covering basic topics to highly-detailed advance courses on specialized subjects. If there's a course or topic you would like to see included at the 2019 conference, please email Soni Mohan, Training Coordinator, at soni@4cmarketplace.com.

2018 Training Courses Offered	
A Roadmap to the Future of Air Quality Permitting	HSE Leadership Excellence (Early-to-Advanced Professionals)
Advanced Stack Testing	In-Situ Remediation of Hydrocarbon and Saltwater Impacted Soils
Advanced Topics in Quantitative Optical Gas Imaging	Intermediate Air Permitting
Air Permitting Essentials	LDAR - Beyond Basics and Underneath the Rules - (Multi-Day)
Air Permitting for Experts - (Multi-Day)	LDAR Excellence - (Multi-Day)
BWON Auditing for Experts	Oil & Gas Air Regulations - What You Need to Focus on Now
BWON Fundamentals - Implementing a Comprehensive BWON Program	Optical Gas Imaging
Continuous Emissions Monitoring Systems (CEMS) Essentials	Particulate Matter Measurement Demystified
ESC StackVision New User Mini (1-day) Training	Process Heater and Boiler Tune Up Training
Essentials of Air Permitting & Compliance for Chemical Plants	PSM Excellence / PHA Best Practices
FAA 107 - Drone Certification	Refinery Sector Rule Focused Compliance
Flare Control System Design to Comply with EPA RSR-63.670 Rules	Stack Testing Essentials
Flares Essentials	Tanks Essentials
Flares for Experts: Flare Instrumentation and Analyzers	Valve Essentials
Fugitive Emissions Course	Video Imaging Spectral Radiometry as an Alternative Monitoring Method for the Refinery Sector Rule
Guideware Software Training	Visible Emissions Measurement Certification (ALT 082)
How to Effectively Control Wastewater pH, ORP and Turbidity	Wastewater Essentials for Refining and Petrochemical Facilities

2018 SPONSORS & EXHIBITORS

Sponsors

Select businesses demonstrated their commitment to achieving sharing industry best-practices and regulatory compliance strategies in the refinery and chemical industries by becoming sponsors of the 4C Conference. Sponsoring also provided unique opportunities for them to promote their business throughout the conference to the targeted audience they wished to reach.

Elite Sponsors

Platinum Sponsors

Gold Sponsors

Silver Sponsors

Bronze Sponsors

Media Sponsors

Exhibitors

Businesses took advantage of the opportunity to get their message in front of potential new customers in the refinery & chemical industries by becoming exhibitors. The demand for exhibit space at 4C is very high, and exhibitor booths often sell out prior to the conference.

Exhibiting Companies

Airgas	HydroChemPSC
Alliance Source Testing	InfoSight
AmeriTek Environmental	Infrared Cameras Inc.
APTIM	Insight Environmental
BAIR Environmental	InspectionLogic
Baker Hughes, a GE Company	ISS
Barr Engineering	John Zink Hamworthy
Beric Valves	Juniper Systems
BioAir Solutions	LDAR Solutions
Bureau Veritas	LDARtools
CAMSCO	Leak Surveys Inc.
CDM Environmental and Technical Services	M&C TechGroup
Cemtek Environmental	Montrose Group
CNTRAL	Optical Scientific Inc.
EcoVapor Recovery	Providence Photonics
Emerson Automation Solutions	RECES Environmental Consulting
Emission Monitoring Service, Inc.	Score Valve
Environmental Intellect	SENSIT Technologies
Environmental Systems Corporation	SGS North America
Eurofins	SLR Consulting
Extrel CMS	Spirit Environmental
FLIR	TEAM
Fluenta	Think Environmental
Forge Tech	TRC Solutions
Garlock	Trihydro
GAS Inc.	Vapor Point
Golden Specialty	Vector Controls and Automation Group
Guideware	VIM Technologies
Hobre Analyzer Solutions	Viper Drones
HORIBA Process and Environmental	Zeeco
Hy-BON/EDI	ZWICK

All Companies in Attendance

4C Marketplace	Environmental Systems Corporation (ESC)	Oneok, Inc.
AAGriggs Consulting, LLC	ERM	Optical Scientific, Inc. (OSi)
AES Energy Services	Eurofins	OXEA Chemicals
Afton Chemical	Evonik	Oxea Corporation
Airgas, an Air Liquide Company	Evonik Corporation	Oyster Bayou- Denbury Onshore LLC
AKE Services	Exelon Corp	Palmilla Energy
Alberta Energy Regulator	Extrel	Pasadena Refining Systems, Inc.
ALL4 Inc.	ExxonMobil	Phillips 66
Alliance Source Testing, LLC	ExxonMobil Research and Engineering	Phillips 66 - Headquarters
Alon refinery	Flint Hills Resources	Placid Refining Company LLC
Alon USA, LP	Flint Hills Resources, LP	Process Mercury Group
Alpha3 Consulting-LLC	FLIR Systems	Process Tech Inc.
Americas Styrenics LLC	Fluenta Inc.	Providence Engineering
Ameritek Environmental	Flyability	Providence Photonics
Andeavor	Forge Tech, Inc.	Return Energy
Applied Contaminant Control Ltd.	Formosa Plastics Corporation	RFS Compliance Solutions
APTIM	Garlock Sealing Technologies	RPS Group
Atlas Energy	GAS Inc.	Sage ATC Environmental Consulting LLC
Aux Sable Liquid Products, LP	GE Oil & Gas Pressure Control LP	Sage EHS
Axiall	Georgia Gulf Corporation	Sanborn, Head & Associates
BAIR	Georgia-Pacific Chemicals LLC	Sasol
Baker & Hostetler LLP	GHD	Score Diagnostics
Baker Hughes, a GE company	Golden Specialty Inc	Score Valve / Midas Meter
Barr Engineering	GuideWare Systems	SENSIT Technologies
BASF	Gulf Advanced Control Systems Est	SGS Galson Laboratories, Inc
Beric Valves	Gulf Coast Green Energy	Shell
BHGE	H2E Inc.	Shell Chemical Company
BIC Alliance	HALCON RESOURCES CORP	Shell Nigeria Exploration Company (SNEPCo)
BioAir Solutions	Haynes and Boone	Siemens Industries, Inc.
Bloc Environmental	Hobbe	Sinclair Oil
BP	HollyFrontier Corporation	Sinclair Wyoming Refining Company
Breazeale Sachse and Wilson LLP	Horiba	SLR Consulting
Buckeye Partners	HORIBA Instruments	SoCalGas
Buckeye Partners LP	Houston Refining, LP	Solvay
Buckeye Texas Processing	Hunton & Williams LLP	Southern Company
Bureau Veritas	Huntsman Corporation	Spectrum Environmental Solutions, LLC
Burns & McDonnell	Husky Energy	Spirit Environmental
Callidus Technologies	HY-BON Engineering	Synagro
Calument Specialty	HydroChem PSC	Talen Energy
Calumet Montana Refining	ICI " Infrared Cameras Inc	Target Emission Services
Camsco	Independent Contractor	Teadit N.A., Inc.
Cargill	Industrial Valco	Team Industrial Services, Inc.
Cargill, Inc	Industrial Valves	
CDM Environmental & Technical Services	InfoSight Corporation	

Celanese	Infrared Cameras Inc.	TeamFurmanite
CEMTEK Environmental	Insight Environmental, Inc.	Tesoro
Chevron	InspectionLogic Corporation	Texas A&M University Corpus Christi
Chevron Phillips Chemical Company	Integro Solutions	Thermo Fisher Scientific
Chevron Phillips Chemical Company LP	Intercontinental Terminals Company	Think Environmental
Chevron Products Company	IPR*EMS	Tischler/Kocurek
CHS Energy Operations	ISS - Industrial Specialty Services, LLC	Total Petrochemicals Inc.
CITGO Petroleum Corporation	John Brooks Company	TRC Solutions
CNTRAL	John Zink Hamworthy Combustion	Trihydro Corporation
Continental Resources, Inc.	Johnson & Johnson	Trinity Consultants
Crain, Caton & James	Juniper Systems	Tulane Univeristy
CVR Energy, Inc.	K and K Process	United Valve
DataWing Global	Katten Muchin Rosenman LLP	University of Gana
Davis L Ford & Associates	KCI Corporation	University of Oklahoma
Delek Refining, Ltd	KCI Publishing	US EPA
Delek US	KCI World	USAF/ANG
Delek US Holdings, Inc.	Ken Garing & Associates	Utah State Division of Air Quality
DNV GL	Kinder Morgan	Valero
Eastman Chemical Company	Koch Fertilizer Enid	Valero Energy
EBAA Iron Inc	Korsa Technical	Valero Energy Corporation
EcoVapor Recovery	Kuraray	Valero Energy Corporation - HQ
Eli Lilly, Retired	Kuwait Oil Company	Valero Services
Emerson Automation Solutions	Lamar University	Vapor Point LLC
Emerson Process Management	Lamar University-Beaumont	Vector Controls and Automation Group
Emission Advisors Inc.	LDAR Solutions	Ventil
EMSI	LDARtools	VIM Technologies
EMSI Environmental Services	Leak Surveys Inc.	Vinson & Elkins
ENCOS, Inc.	Lotte Chemical Louisiana LLC	Viper Drones
Energy Transfer	Louisiana Department of Environmental Quality	Virtual Technology LLC
Energy Transfer Partners, L.P.	Lyondellbasell	Vista GeoScience
Enginuity Global	LyondellBasell / Houston Refining	VSP Technologies
EnLink Midstream	M&C Tech Group N.A.	Western Refining Southwest, Inc.,
EnRUD Resources, Inc.	Marathon Petroleum Company LP,	Gallup
Entergy	Illinois Refining Division	Westlake
Environment and Climate Change Canada	Marathon Petroleum Corporation	Westlake Chemical Corporation
Environmental Business Specialists LLC (EBS)	MDesign	Williams
Environmental Compliance Technologies, Inc.	Meridian Energy	Wood Group
Environmental Intellect (Ei)	Miller Environmental Services, LLC	Xcel Energy
Environmental Rental	Montrose Environmental Group	Zeeco, Inc.
Environmental Standards, Inc.	Montrose Environmental Group, Inc.	Zwick Valves N.A. LLC
	Naviknow	
	NuStar Energy	
	OK Roger	

2019 CONFERENCE INFORMATION

2019 Dates, Location and Format

In 2019, the 4C HSE Conference returns to Austin to host 3 days of cutting-edge presentations, training sessions, and exciting networking events.

Dates: February 6-8, 2019

Location: Hilton Austin
500 East 4th Street
Austin, Texas 78701

Format

February 6th: Breakout Presentations & Tradeshow
February 7th: Training Sessions & Tradeshow
February 8th: Training Sessions

2019 Attendee Registration Pricing

4C offers registration pricing for Industry Members (end-users, refinery/petrochemical/chemical plant employees), Non-Industry members (vendors, OEMs, consultants), Government Employees, and Students.

Register at <https://www.4conference.com>.

Group discounts are available. Please email info@4conference.com for group rates.

Full Conference Registration Prices

Full conference registration includes access to all breakout presentations, training sessions, networking events, meals, and other conference events.

Registration Type	Registration Item	Price
Industry Member	Full Conference Registration	\$1,495
Non-Industry Member	Full Conference Registration	\$2,450
Government Employee	Full Conference Registration	\$1,225
Student	Full Conference Registration	\$100

a La Carte Conference Registration Prices

If registrants are interested in specific conference offerings, they may register for individual items.

Registration Type	Registration Item	Price
Industry Member	Presentations Day (Feb. 6)	\$825
	2/2.5-Day Course	\$950
	1-Day Course	\$425
	2/4-Hour Workshops	\$295
Non-Industry Member	Presentations Day (Feb. 6)	\$1,275
	2/2.5-Day Course	\$1,475
	1-Day Course	\$575
	2/4-Hour Workshops	\$350
